# Meet the Team

**Kate Palaces Narita** is the author of *100 Bugs! A Counting Book*. When she's not out and about driving, teaching fourth grade or cheering on her two teenage sons, Kate lives, writes, and hikes on a small mountain in central Massachusetts. There's a magical part of Mt. Wachusett in every one of her stories. Be it small wonders like darting dragonflies and gorgeous garden phlox, or large wonders like munching moose and beautiful balsam firs, she celebrates nature's bounty each and every day. Visit her at [www.katenarita.com](http://www.katenarita.com).

**Suzanne Kaufman** is an author, illustrator, animator and lover of school potlucks. She is the author-illustrator of *Confiscated* and *I Love Monkey*. Her previously illustrated work includes books: *All Are Welcome*, *100 Bugs*, *Naughty Claudine Christmas*, and *Samanthasaurus Rex*. Over the years, she's done everything from animating special effects for Universal Television and Discovery Channel, to animating award-winning video games for children. When not tramping through the wilds of the Pacific Northwest, you will find her teaching animation or working in her studio. She lives in Seattle with her husband and two creative daughters of her own. Visit her at [www.suzannekaufman.com](http://www.suzannekaufman.com).

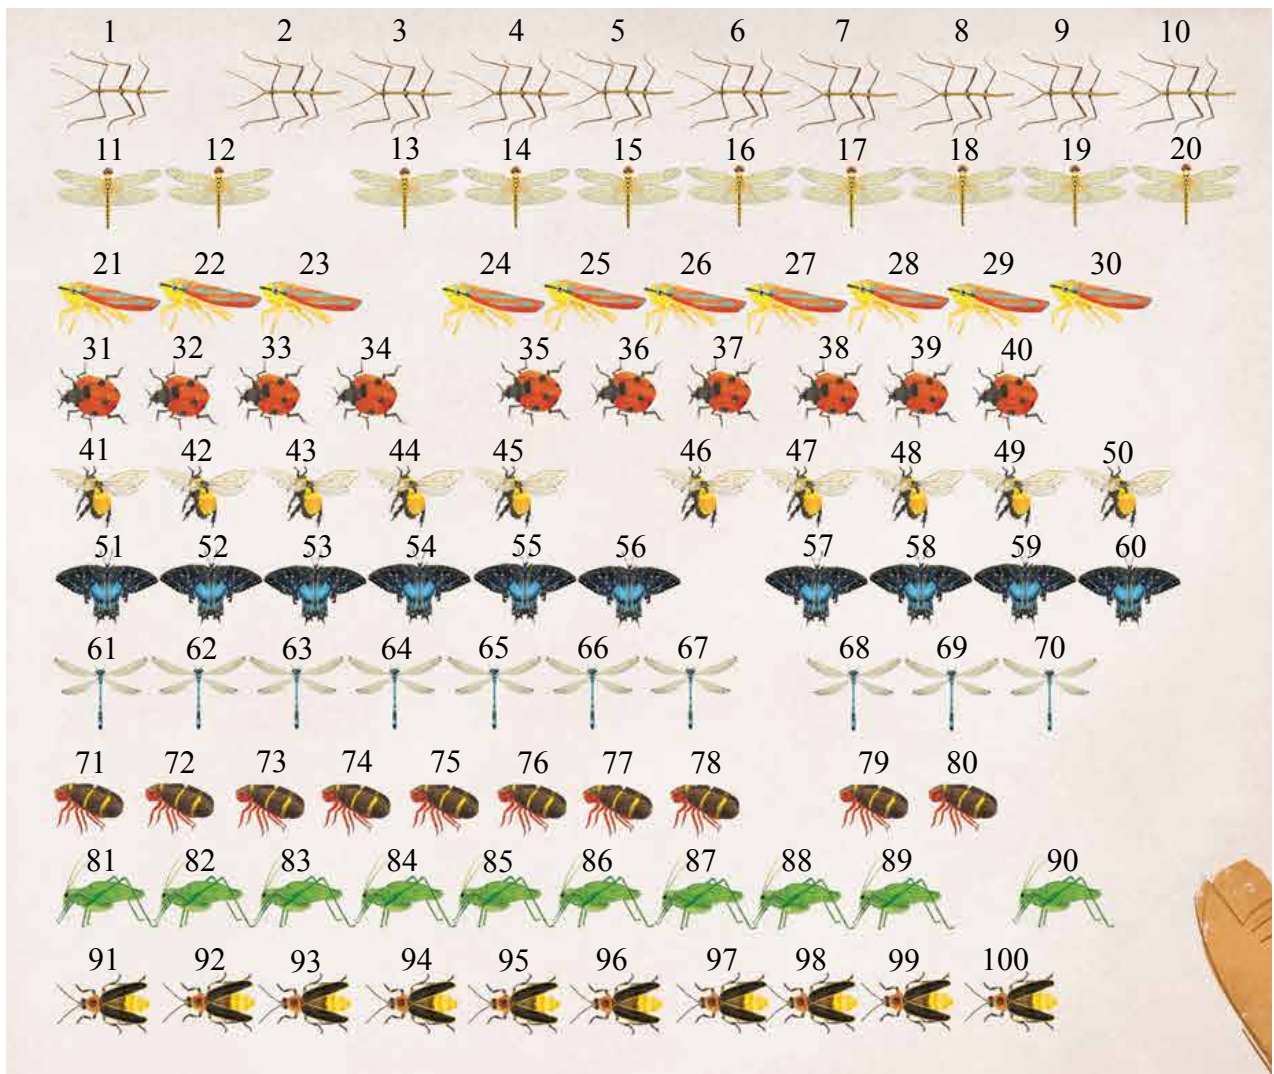

**Lisandra Flynn** is an editor turned elementary school teacher who works with Kate. She has a flair for design and enjoys creating learning resources for her students and fellow teachers. When she's not teaching or tediously reorganizing her classroom, Lisandra enjoys hiking, crafting, and decorating her home in central Massachusetts, which she shares with her husband, baby boy, and two feisty cats.

# Look-and-Find Bug Hunt

Suzanne Kaufman's delightful look-and-find illustrations are tons of fun. Create your own look-and-find learning experience in your school. Print out 100 copies of Ms. Kaufman's whimsical insects (attached) or team up with an older class in your school. Ask the older students to draw the 100 bugs featured in the book and hide them in the hallways around the school. Then, give your students a copy of the array below from the book. Each time students find one of the bugs, have them cross off the bug on their array.
